

## EXT

- ⊗ Expand plowing potential with expandable wings that extend at the touch of a button from 8 feet to 10 feet quickly and efficiently.
- ⊗ Fixed forward wings provide superior snow carrying and windrowing capabilities.
- ⊗ Designed for 3/4 ton & 1 ton trucks.
- ⊗ Equipped standard with SL3 L.E.D. Headlight system with up to 2x the light output compared to traditional halogen lights, 8-10 years of life expectancy and BOSS' exclusive Ice Shield Technology to prevent ice buildup.
- ⊗ Utilizes the BOSS RT3 standard undercarriage system for quick attachment and versatility to switch between any trucks in your fleet.  
(Note: Excludes Sport Duty/HTX/Heavy-Duty Plows).
- ⊗ Full Trip design protects the truck and plow from damage when obstacles are encountered.
- ⊗ Ideal for parking lots and wide open spaces.

## HTX V-Plow

- ⊗ Designed for half-ton and lighter duty vehicles. Weighs hundreds of pounds less than some competitive 7'6" V-plows.
- ⊗ Equipped standard with SL3 L.E.D. Headlight system with up to 2x the light output compared to traditional halogen lights, 8-10 years of life expectancy and BOSS' exclusive Ice Shield Technology to prevent ice buildup.
- ⊗ Available in 7'6" mild steel.
- ⊗ Features built-in mounting locations for plow shoes and snow deflector.

## VBX 6500 Hopper Spreader

- ⊗ 1.5 cu. yard capacity with a smaller footprint than VBX 8000 to fit in short bed trucks. Available in either auger or pindle feed design to accommodate material preference.
- ⊗ Standard twin vibrators (Auger only-optional on pindle) prevent material bridging for ease of operation.
- ⊗ Standard dual halogen work lights for ease of operation and safety.
- ⊗ Heavy-duty tarp with tie downs.

## 9' Heavy-Duty Straight-Blade

- ⊗ Heavy-Duty push frame and quadrant for additional strength and reliability.
- ⊗ Equipped standard with SL3 L.E.D. Headlight system with up to 2x the light output compared to traditional halogen lights, 8-10 years of life expectancy and BOSS' exclusive Ice Shield Technology to prevent ice buildup.
- ⊗ Reinforced moldboard with diagonal cross-bracing and formed bottom channel to increase blade rigidity.
- ⊗ Standard cast-iron plow shoes for extended wear resistance compared to steel shoes.
- ⊗ Utilizes the BOSS 10' undercarriage.  
(Not compatible with RT3 standard undercarriage.)

## 5'6" XT V-Plow Mid-Size UTV & ATV

- ⊗ V-plow versatility in a tough, compact package.
- ⊗ 30" lift height for superior snow-stacking.
- ⊗ Fully hydraulic; no winches, pulleys, or handles - for ease of operation, reliability and reduced operator fatigue.
- ⊗ Low-profile undercarriage design for exceptional ground clearance.
- ⊗ Quick attachment system for ease of operation and convenience.
- ⊗ Handheld/handlebar controller for ease of operation, even with gloves.
