Snowrator MAG Vehicle

- Stainless steel chassis for optimal corrosion resistance.
- 690 cold cranking amps for easy winter starting.
- 26.5 horsepower electronic fuel-injected engine with an electronic throttle body that senses, reacts, and optimizes power.
- 4WD powers 8 mph forward and 5 mph in reverse.
- Superior dashboard design with easy-to-operate controls and easy access parking brake.
- BOSS trusted hydraulic float system allows attachments to follow the contour of the working surface.
- 25-degrees of upward lift capability and 17-degrees of depression.
- Quick attach system for easy connect/disconnect of all attachment tools.
- Standard D-Force for all attachments.
- Two forward and one rear-mounted LED work lights.
- Operator comforts: Venting system directs heat to the operator's hands, legs, and feet and an oversized cupholder.
- Built in tie-down points for easy transport.

Attachments

V-XT

- 4'2" v-blade with a ¼ inch AR450 cutting edge, snow catcher, and curb guard designed to protect the plow and your property.
- Reinforced push frame, dual-acting cylinders for back-dragging performance.
- Simultaneous and independent hydraulic wing control.

Straight-Blade

- 4' and 5' BOSS straight-blade
- Increase your plowing capacity by adding blade extensions or box wings.

Snow Thrower | STX48

- Dual hydraulic motors power 48" auger and 18" impeller.
- Hydraulically powered to throw snow 2' to 35' with 210 degrees of shoot rotation.

Broom | BRX48

- 48" broom with durable bristles is optimized for lighter weight, balance, and wear resistance for any job.
- Features forward and reverse capability to pull snow away from doorways or buildings.
- Adjustable casters for optimal bristle life.

Exact Path

- 1.5 cubic foot drop spreader with a bag splitter for easy loading.
- No salt deflector is needed. The lift group design allows for direct material flow down to the working area.
- Improved installation time compared to existing Snowrator.

TGS85

- Quick attach/ detach poly broadcast spreader
- Mounts to the back of the vehicle for easy filling and can accommodate up to 50 lbs. of de-icing material.
- Equipped with 1/8 horsepower motor and stainless-steel hardware.
