

Maneuverable, Multi-Tasking, Labor-Saving Solution

L.T. Rich Snowrator

NEW BOSS Snowrator

NEW BOSS Designed Features and Improvements

Plow

- ⊗ 4' BOSS Hydraulic Snowplow with a 20" tall poly skin blade.
- ⊗ BOSS Snowrator Snowplow offers all BOSS ATV Plow accessories and common parts with BOSS ATV plows for better parts availability and convenience of service.

Ice Control and Optional Spreading Equipment

- ⊗ Snowrator features both pre-treatment and de-icing capabilities with a standard 20-gallon pre-treatment brine system and available optional auxiliary brine tank and two de-icing solid material spreaders.
- ⊗ Updated fully-potted broadcast spreader controller provides on-board diagnostics for troubleshooting, eases operation.
- ⊗ EXACT PATH 1.5 cu ft Drop Spreader with a BOSS exclusive salt chute to precisely distribute salt at the optimum width and pattern minimizing damage to turf while reducing salt contact with the plow attachment system.

NEW BOSS Designed Features and Improvements

Vehicle

- ⊗ BOSS chassis provides greater protection from puncture to standard brine tank and features new removable rear plate for easier maintenance and access to tank.
- ⊗ Rear fenders and splashguards help to protect operator from slush, salt, snow and other debris for operator comfort.
- ⊗ Vehicle hardware now features nylon locking nuts to prevent loosening due to vehicle operation for improved reliability.

Electrical

- ⊗ Snowrator electrical system now features weather-resistant connectors to improve reliability.
- ⊗ Hydraulic hose ends now feature a coating with 7X greater corrosion resistance.
- ⊗ Joystick hydraulic manifold is now painted to reduce corrosion.
- ⊗ Eliminated terminal block replaced with a power/ground harness reduces corrosion to electrical system and allows for plug-and-play with optional equipment.
- ⊗ Increased gauge of power and ground cable to improve performance.

Controls

- ⊗ Responsive hydraulic lever turn control operations offer ease of maneuverability with zero turn radius and 4-wheel drive for traction in any conditions.
- ⊗ Rear reference bar makes operation easier by giving operator an additional hand-hold support feature.
- ⊗ Front reference bar is now notched to prevent bar from slipping, and offers a method of limiting vehicle speed.
- ⊗ LED work lights for clear visibility on the job.

Service

- ⊗ Improved parts availability via BOSS Snowrator Dealer Network and via e-commerce at ShopBOSSplow.com.
