## ADDED POWER & RELIABILITY

*New snowblowers add size and power to commercial lineup*

Landscape contractors have a new option to clear snow faster with Power Max® HD commercial snowblowers. The Power Max HD line sets a new standard for size and power in Toro's snow lineup, offering a range of major enhancements for increased productivity and durability.

## TWO NEW POWER MAX® SNOWBLOWERS

*New upgraded models tackle tough conditions with steel chutes*

The Power Max 824 OE and Power Max 826 OXE feature all-steel chutes and reinforced Quick Stick® chute control -- meaning these snowblowers are built to last. They include a 252cc Toro Premium OHV 4-cycle engine and come standard with large 15" tires and electric start functionality to ensure the machines will be ready for any job, regardless of frigid temperatures.

## NEW POWER MAX HD SNOWBLOWERS

*"HD" means heavy-duty, two-stage machines that make snowblowing faster and easier for homeowners!*

Toro just unveiled its most rugged and durable snowblowers for homeowners. The new Power Max HD lineup includes large two-stage, all-steel construction models that increase productivity like never before. These snowblowers can attack deep snow drifts, including snow piled up at the end of a driveway, with clearing widths up to 32 inches. They have a powerful throw range, up to 57 feet, clearing large amounts of snow.

## PREPPING FOR SEASON WITH EDUCATION AND EXCLUSIVE PROMOTION

*Toro focuses on providing maintenance tips and a special offer to prep for snow season*

A library of helpful Toro maintenance videos is available to educate users on proper care of their snowblower products. The library is easily accessed through [www.Yardcare.com](http://www.Yardcare.com) and helps users assess the condition of their machine. Those who decide they need to replace their snowblower can take advantage of an exclusive offer -- a FREE extended year of engine warranty on all Toro gas-powered units with purchase of qualifying Toro Maintenance Kit -- available through Jan. 31, 2019.
