

# AUTO WIND HOSE REEL

## Cautions:

The Auto Wind Hose Reel is designed for home watering applications using cold water only.

It is not intended for commercial applications.

Before use ensure the reel is securely attached to the wall and free of obstructions.

Do not place undue force on the reel casing. Doing so may damage the casing or the bracket.

Children should not be allowed to operate or play with the Auto Wind Hose Reel.

Ensure children are clear of the hose and casing when unwinding and rewinding.

Always walk the hose back to the reel when rewinding.

Regularly inspect the bracket and securing pin for signs of wear.

Always turn the water off at the tap when the Auto Wind Hose Reel is not in use.

## GUARANTEE

This Pope product and its components, excluding the multifunction handspray are guaranteed to be free from defects in materials or workmanship for a period of 12 months from the date of purchase provided the product has been used in accordance with the manufacturer's recommendations. Our obligation under this guarantee is limited to the repair or replacement at our option, of the product within one year from the date of purchase.

This guarantee does not include the multifunction handspray.

In the interest of better quality and value we are constantly updating our product. Consequently the picture on the packaging and in this Users Guide may differ from the model enclosed.

# AUTO WIND HOSE REEL

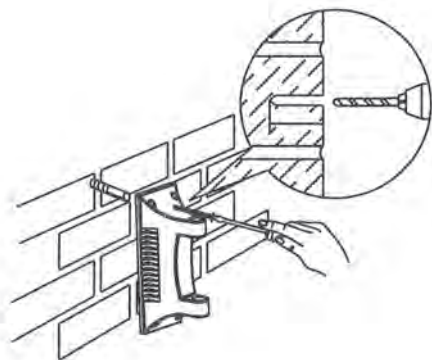

Congratulations on your purchase of the Pope *Auto Wind Hose Reel*. This specifically designed unit comes pre-assembled and complete with 20 metres of reinforced garden hose, hose end fittings, multifunction handspray and wall mounting bracket.

The *Auto Wind Hose Reel* has a unique 180° swivel mechanism that allows the hose to be pulled out in any direction. The enclosed reel protects the hose and prolongs hose life.

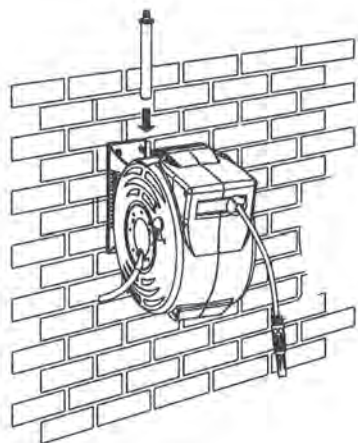

## Contents

- A. Wall mounting bracket
- B. Securing pin
- C. Reel
- D. Universal Tap adaptor (fits 3/4" & 1" taps)
- E. Hose connector x 2
- F. Multifunction handspray
- G. Screw x 4
- H. Wall plug x 4
- I. 20m x 12mm reinforced garden hose (pre-wound)
- J. 2m tap to reel connector

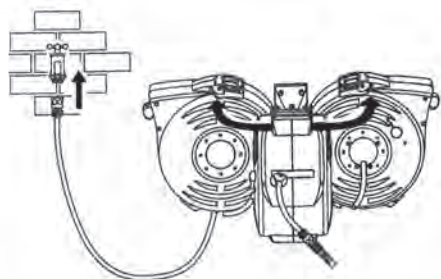

## Installation Instructions

1. Select a suitable position to mount your Auto Wind Hose Reel. The Hose Reel should be mounted at approximately waist height.
2. Using the bracket as a template, mark the location of the screws. Drill the 4 holes and insert the wall plugs, before aligning bracket and fixing with the 4 screws.

3. Align the back of the reel with the wall bracket and insert the securing pin through the join.

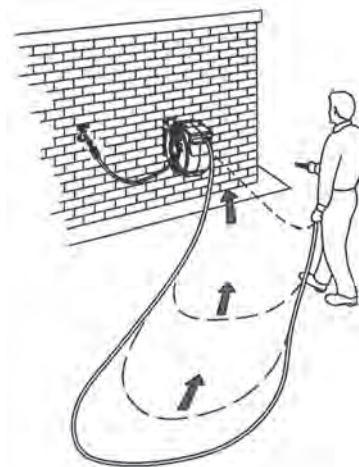

4. Attach the 2m tap to reel connector to your tap using the universal tap adaptor. Test to ensure the reel rotates freely through 180° with the tap adaptor connected.

## Instructions for Use

Now that your Pope Auto Wind Hose Reel is securely mounted and connected to the tap it is ready for use.

1. Before first use, turn the water on at the tap and unwind the hose. The hose will unwind by simply taking hold of the hose and walking away from the reel. This will allow water to flow freely through the hose and reel.

2. The automatic locking ratchet will hold the hose in place at the desired length. The mechanism will 'click' as the hose is locked in place or rewound.

3. To release, pull the hose away from the reel. You will feel the hose start to rewind, walk back with the hose towards the reel. Do not simply let go of the hose. (see pic)

4. When finished turn the water off at the tap.
