Wireless Mobile Scene Control

Mobile phone not included

Lighting System Control Anytime, Anywhere

Introducing Light Logic™ PLUS, an affordable Internet-Based Outdoor Lighting Control System from Unique Lighting™. Light Logic™ PLUS builds on the original Light Logic™ Wireless Control System with the addition of an Internet Gateway and Mobile App.

- Control From Your Computer or Mobile Device
- Secure Internet Gateway - No Wi-Fi Limitations
- **FREE** iOS®* or Android™* App (App Store and Google Play)
- Control Multiple Lighting Systems from More Than One Device
- Compatible with Existing Light Logic™ Installations
- Use with Lighting, Ponds, Fountains, Gates & More...
- Robust, Reliable and Upgradable

Easy to Setup, Easy to Use:

1. Connect the LPLUS Internet Gateway (Ethernet)
2. Register at www.lightlogicplus.com
3. Configure Locations, Scenes and Schedules

Light Logic™ Internet Server

PC

Mobile Device

LPLUS Internet Gateway

LPCU-A Units

PC - Configure locations, scenes, schedules and other functional options using the PC at www.lightlogicplus.com. The PC communicates with the LPLUS Internet Gateway via the Light Logic™ Internet Server.

Mobile Device - iOS or Android downloadable App allows control of On/Off and Manual Override settings. The mobile device communicates with the LPLUS Internet Gateway via the Light Logic™ Internet Server.

LPLUS Internet Gateway - A communication device between the Light Logic™ Internet Server and the LPCU-A modules. The LPLUS Internet Gateway communicates with the LPCU-A modules using a very dependable 900 MHz RF signal.
