Inge Bisconer

Technical Marketing & Sales Manager | Toro® Micro-Irrigation | 1588 N. Marshall Ave, El Cajon, CA 92020 | Cell +1(619)507-2920 | Office +1(619)596-4291 | inge.bisconer@toro.com

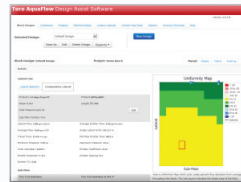

1. Toro® Micro-Irrigation Owner's Manual

This 129-page, four-color, fully illustrated, spiral-bound guide is a must-have for the operation and maintenance of both new and existing micro-irrigation systems for row, field and permanent crops. Available in both English and Spanish versions, with measurements in English and Metric Units.

Chapter titles include:

1. Drip Irrigation System Overview
2. Starting up Your System
3. Basic System Operation
(including 30 pages of basic Irrigation Scheduling)
4. Fertigation and Chemigation
5. Salinity Management
6. System Maintenance
7. Maximizing your Investment
- R. References
- A. Appendix

4. AquaFlow Drip Irrigation Design Software

AquaFlow is Toro's FREE drip irrigation design software that provides irrigation designers with a state-of-the-art tool to configure drip irrigation systems for optimum performance. It's simple enough for layman yet sophisticated enough for professionals. After registration at the following link, AquaFlow will be available for use online or downloaded.

5. Toro's Drip/Micro Payback Wizard

The Payback Wizard was developed to help users estimate the return on investment period for a drip irrigation system investment. After entering only five pieces of information (state, crop, acres, water cost, and existing irrigation method), users immediately view various predicted cost savings and revenue enhancement benefits associated with the conversion from flood, sprinkler or mechanized irrigation to high-efficiency drip irrigation technology.

2. Toro® Solutions Brochures

Includes case studies on regional field, row and permanent crop applications, and special topic discussions including "The Advantages of Closely Spaced Emitters", "SDI for Field Crops", and "IPM using Micro-Sprinklers".

www.driptips.toro.com/case-studies-how-to-drip-irrigation/

6. Grange Network Recorded Webinars

Access these webinars that Toro has presented or sponsored including Making Drip Pay, SDI for Field Crops, Fertigation, Irrigation Scheduling, How Irrigation Uniformity Affects Plant Health, 2014 CII Conference Wrap-up, Overcoming Uniformity Challenges with Aqua-Traxx FC Flow Control Drip Tape, An Overview of Toro's Owner's Manual, Drip System Operation and Maintenance, and Designing for Uniformity with Toro's AquaFlow Drip Irrigation Design Software.

Please email inge.bisconer@toro.com if you would like to receive the link to this collection.

3. The Toro® Education Tools Binder

This is a collection of the previously mentioned documents, as well as selected published papers, organized by the following topical chapters:

- a. Why Drip, Why Toro: Making Drip Pay
- b. Design, Installation, Operation and Maintenance
- c. Row Crop Applications
- d. Field Crop Subsurface Drip Applications
- e. Permanent Crop and Nursery Applications

Please email inge.bisconer@toro.com if you would like to receive the link to this collection.

7. "The Water Zone" Radio Show

Tune in to Toro sponsored radio show with interesting and informative guests to advance the water conversation every Thursday at 6 p.m. PDT on NBC News Radio KCAA 1050 AM, KCAA 106.5 FM or online via recorded podcasts. It reaches nearly 5 million people in Riverside, San Bernardino and Orange County.
