EdgeSeries® Reels

Game changing Lithium-lon innovation.

Extremely quiet with no engine exhaust emissions, the all-electric Toro® Greensmaster® e1021 and e1026 synchronize the operator and machine in an effort to eliminate operator influence on the turf. Offering a 21" or 26" cutting width, these mowers are among the quietest and most efficient walk greensmowers on the market today. Harnessing the power of lithium-ion battery technology, the e1021 and e1026 take electrical efficiency to a new level, allowing operators to mow up to 44,000* sq. ft. of turf on a single charge. Additionally, a convenient LCD screen indicates an ongoing battery charge status and also displays useful information such as machine hours, diagnostics, and overall battery health. These units are designed for minimal maintenace and a long, productive life, saving on labor and operational costs.
