

Greensmaster® 1600 Accessories

Greensmaster 1600

The Greensmaster® 1600 has a 26 inch cutting width and extended height of cut range making it the perfect mower for tee boxes, aprons and other formal turf areas, even large area greens or sports fields.

The Greensmaster 1600 is equipped with many attachments and accessories to ensure you have the right tools to match any turf conditions.

Greensmaster 1600 | 04060

- 3.7 HP (2.7 kW) engine
- Wider width of cut and extended cutting height range for greens, tee boxes, sports fields, and other formal turf areas

Greensmaster 1600

California CARB Compliant | 04035

- Adheres to CARB emissions standards
- Only sold in California

Standard Equipment

Narrow Wiehle Roller | 93-9039

- .200" (5mm) groove spacing, Aluminum roller
- Low penetration into turf

Low Cut Bedknife | 93-9015

- Height of cut range 3/16" - 1.0" (4.8 - 25.4mm)
- Thicker blade for longer lasting bedknife

Bedknife & Bedbar Options

Tournament Bedknife | 94-5885

- Height of cut range 1/8" to 1/2" (3.2 - 12.7mm)
- Thick blade for longer lasting bedknife

High Cut Bedknife | 104-2646

- Height of cut range 5/16 to 1/2" (8 - 25.4mm)
- Use on tee boxes, aprons, and other higher heights of cut

Fairway Bedknife | 107-8181

- Height of cut range 3/8" - 1" (10 - 25.4mm)
- Used for mowing at higher heights of cut in fairway applications

Microcut Bedknife | 112-9275

- Height of cut range 5/64" - 3/16" (2.0mm - 4.8mm)
- Optimal for the lowest heights of cut

Aggressive Bedbar | 112-9278-03

- Designed for firm greens where a more aggressive cut is needed for more aggressive cultivars
- Recommended when reel diameter has worn down due to extended wear to achieve lower heights of cut
- Not recommended for use in soft turf conditions or periods of high stress

Height of Cut Adjustment Bar | 94-9010

- Adjustment bar used to adjust cutting height

High Height of Cut Bar | 99-4286

- Allows for higher heights of cut, up to 1 1/2" (38mm)

Greensmaster® 1600 Accessories

Roller & Roller Scraper Options

Full Roller | 95-0930

- Use in soft conditions or high stress periods to prevent thinning of turf

Wiehle Roller Scraper | 112-9290

- Scraper bar used to clear the front roller of dirt, grass and debris buildup

Front Roller Extension Kit | 65-8560

- Roller extension wheels that attach to the outside of front roller shaft
- Use on soft turf or heavily undulated greens to prevent edge marking of cutting unit

Groomer Options

Groomer Reel | 04132

- Carbide-tipped groomer blades
- Controls grain growth and lifts grass blades for a crisp, clean cut

Groomer Brush Assembly | 115-1600

- Spiral rotating brush used to condition grass before cutting

Note: Groomer brush may increase the amount of clippings deposited into the basket when set to more aggressive settings.

Traction Unit Accessories

Light Kit | 04061

- Allows operator to mow in low light conditions

Operator Presence Bail Kit | 112-9282

- Safety feature that kills engine if operator releases handle
- Required for CE Compliance

Traction Slow Down Kit | 115-1886

- Sixteen tooth pulley used to reduce traction speed and increase frequency of clip to achieve higher quality of cut
- Gives smaller operators more control of machine and improves ease of use

Clip Kit | 65-9000

- Alters clip frequency for an improved quality of cut at higher cutting heights
- Use for tee boxes, aprons and higher heights of cut
- Alternative option to purchasing an 8-blade reel to reduce frequency of clip

Hour Meter Kit | 105-5350

- Records hours of engine use
- Standard on all F'09 models

Wheel Kit | 04123

- Used to transport mower

Spark Arrestor Kit | 117-1441

- Prevents sparks from emitting from the engine

Jet Main Kit #62 | 98-8735

- High altitude engine application
- Use for heights between 3,000-6,000 ft (914 – 1829m)

Jet Main Kit #60 | 98-8736

- High altitude engine application
- Use for elevations above 6,000 ft (1829m)

11-Blade Reel | 112-9276

- Offers increased frequency of clip and improved performance on lower heights of cut

Greensmaster® 1600 Accessories

Additional Accessories & Older Models Available

Operator Presence Bail Kit | 105-5363

- Safety feature that kills engine if operator releases handle
- For 2007 models and older

Light Kit | 110-3463

- Allows operator to mow in low light conditions
- For 2007 models and older

Additional Turf Equipment

Turf Evaluator | 04399

- Mirror device used to assess the conditions of the turf
