Efficient and Productive Overseeding.

The Aerothatch 83 delivers exceptional relief from thatch and compaction. Its 90 hp (67.1 kW) rated gearbox helps it withstand the most rugged conditions and provides a long life. It features 16 durable thatching blades, spaced 3-inches (7.6 cm) on center that can achieve depths to 3 inches (7.6 cm). A 1-inch (2.5 cm) on center thatching blade kit is available for more aggressive aerating. Paired with the Aerothatch 83, the Seeder 93 delivers efficient overseeding in a simple, one-pass configuration. Seeds flow through 16 independent channels to the grooves created by the Aerothatch 83 for efficient germination. Flow rate is easily and quickly set without tools.
