

EdgeSeries Reels+™

EdgeSeries Reels+™ replacement reels take performance to the next level with bearings and seals already installed on the reel. Available for Toro riding and walk Greensmaster® and Reelmaster® mowers, EdgeSeries Reels+ are designed for longer life with less maintenance — all while delivering a phenomenal quality of cut.

- **Check bedknife-to-reel contact daily and adjust as appropriate to maintain light contact.**
- **Inspect edges to see if they are dull, nicked or bent.**
- **Do regular backlapping to maintain sharpness between grindings.**
- **Use relief grinding to reduce abrasive wear between reel blades and bedknife.**
- **For best results, Toro recommends replacing reels at the same interval to maintain the highest quality of cut.**

OUR PROMISE:

- **Quality** – Genuine Toro® service parts are the same parts used on the original equipment, ensuring maximum performance.
- **Reliability** – Most local distributors deliver parts within **24** hours. Toro backs this promise with **48**-hour delivery support.
- **Competitive Pricing** – Toro's MSRP is competitive to will-fit providers.
- **Worth It** – With genuine Toro parts, you get the right part with the correct specifications. There's no need to wonder if the part will work.

REELS+™ EdgeSeries Reels+™

SIMPLIFY REEL MAINTENANCE

Toro's new Reels+™ and EdgeSeries Reels+™ help reduce time, labor and costs while maintaining your Toro mower's cutting performance. When it comes to Toro commercial reel mowers, the quality and precision of the reels is the key to Toro's legendary professional quality of cut. However, many wait far too long to replace the reels, resulting in diminished performance.

REELS+™ SAVE TIME SAVE MONEY

- Professionally installed bearings, flock seals and spacers
- Reduced maintenance time and expense — less costly than buying bearings and seals individually
- Save an estimated 15-20 minutes per reel
