**Proven protection
for your equipment
investment.**

Budget protection

Avoid unforeseen expenses to your maintenance budget. Toro Protection Plus gives you a known cost for unplanned expenses making your budget more predictable.

Exceptional protection

When your Toro warranty expires, Toro Protection Plus begins immediately, continuing for the life of your plan. The plan provides coverage that protects you against breakdowns. The only repairs not covered by your plan are normal maintenance parts and labor, misuse or abuse. *Review Contract Terms and Conditions for specific details.*

Toro Genuine Parts & Service

Your plan will be honored at any authorized Toro service distributor throughout the United States. Any repairs made under your plan will be made by qualified Toro technicians using Toro Genuine Parts.

Total security

Each Toro Protection Plus plan is backed by Toro and delivered by your authorized Toro service distributor.

Financing

The plan can be bundled with your equipment financing into a monthly payment, and the coverage extends your protection throughout the financing term.

Coverage options

Toro Protection Plus extends coverage by 1, 2 or 3 years beyond the original Toro warranty period. Plans are available for Comprehensive or Drivetrain protection providing you coverage on critical components with no deductible for up to 5 years or 5,000 hours. Choose the plan that's right for you.

Transportation benefit

For any covered repair, your plan will pay for mobile service or for the pickup/delivery of your equipment by an authorized Toro service distributor. *Review Contract Terms and Conditions for specific details.*

Great value

Toro Protection Plus plans are a good value, as the cost of a single repair could far exceed the cost of a plan. Giving you choices and confidence to protect your Toro fleet.

You choose the coverage and we'll take care of the rest.

COMPREHENSIVE PROTECTION

All operational parts and components for your mower, vehicle, or other machinery, are covered against breakdown. To list everything that is covered would be nearly impossible, so your plan simply lists the things that aren't covered...like normal maintenance items, tune-ups, physical damage, tires, batteries (SLI – starter, lights, ignition batteries), blades, belts, hoses, and seats. If it's not on our list of exclusions, it's covered, and Toro pays the repair bill! You may be responsible for state and local taxes, environmental fees, and/or transportation charges in excess of the plan benefit. Ask your distributor for details.

DRIVETRAIN PROTECTION

Engine/Motor

All parts contained within the engine block/motor housing, cylinder head, or crankcase. Deep Cycle and EV (Electric Vehicle) batteries used as the main source of power.

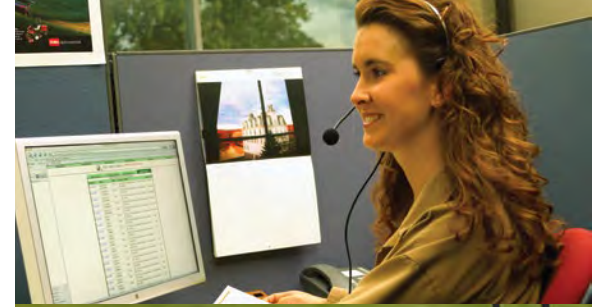

Transmission/Transaxle

All parts contained within the transmission or transaxle case. This includes hydrostatic pumps, valves, and motors.

Drive Axles/Drive Assemblies

All parts contained within the drive axle, PTO housing, 4-wheel drive assemblies, hydraulic drive pumps, valves, steel lines and motors within the main frame.
