BETTER INFORMATION FOR **BETTER DECISIONS**

The Toro® Lynx® Central Control System was developed specifically to help you address the unique challenges and changing priorities you face every day. With Lynx, you can now have all of your essential irrigation information readily available in one place, conveniently combined into a single, intuitive interface.

Easy to Set Up

Lynx® was developed for quick setup – it gives you a fast, accurate way to setup your system to put water exactly where you want it, and then allows you to make edits as your course conditions change.

Easy to Use

Lynx® has a distinct user interface that combines all essential data and intuitively presents the information you need (alerts, scheduled watering and more) at a glance. It's easy to access all the information you need with one click through your Favorites Menu.

Easy to Control

Lynx® empowers you to take quick, accurate action to effectively control and manage your golf course by providing past, present and future course information from multiple sources into a single, intuitive interface.

National Support Network (NSN®)

Toro's exclusive National Support Network provides software and network assistance from experienced service professionals who understand what you need. NSN Connect™ allows easy remote access to your irrigation system.

Our purpose is to help our customers enrich the beauty, productivity and sustainability of the land.

The Lynx[®] System helps you to:

- ✓ Optimally **manage** your water and resources
- ✓ Find more **time** in your day for other tasks
- ✓ Maximize your course **playability and aesthetics**
- ✓ Control your **costs** for water, utilities and labor

Dynamic pulldown

Decide how many
inches/minutes
 to water.

Decide which **days**
of the week you
 are going to turn
 on sprinklers.

Easily edit your
 course map or
 create **your own**
interactive map.

Imagine ALL your irrigation information at your fingertips. Lynx®: redefining Ease and Efficiency to the next level.

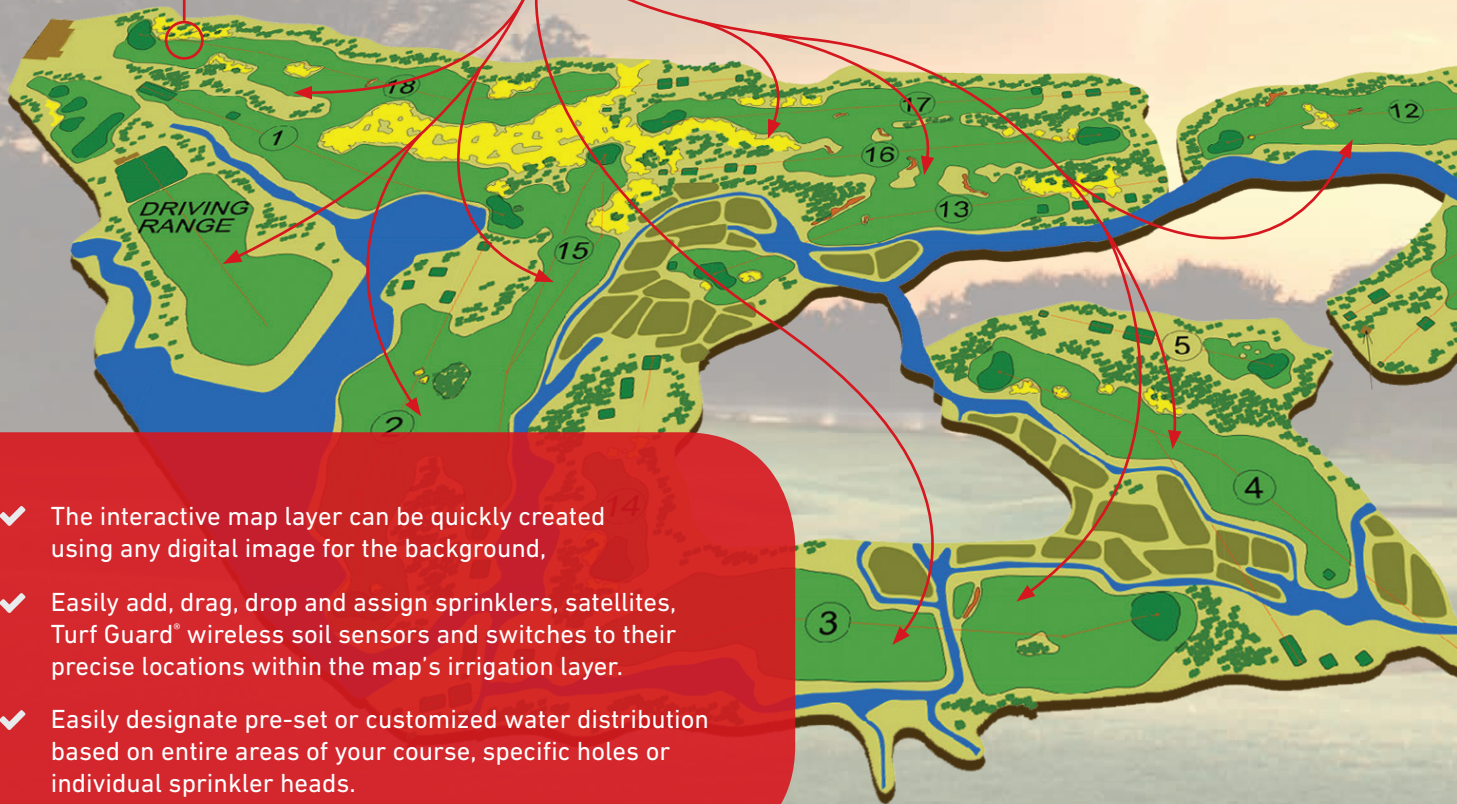

Superior course map editing and creation

The advanced functionality of the Lynx® Central Control System enables you to **edit your course map easily, or create your own fully interactive map** using a digital image of your course. Setting up your map is simple, and Lynx® lets you **program and control your irrigation activities right from the map**, with instant access to operation feedback from the rest of your irrigation system.

Easily set up and customize your irrigation system

Because course managers insist on easy-to-use software, the Lynx® Central Control System was developed for **quick setup and operation**. Lynx® was designed by Toro to reflect the input and preferences of the individuals who would be installing and using it.

- ✓ The interactive map layer can be quickly created using any digital image for the background,
- ✓ Easily add, drag, drop and assign sprinklers, satellites, Turf Guard® wireless soil sensors and switches to their precise locations within the map's irrigation layer.
- ✓ Easily designate pre-set or customized water distribution based on entire areas of your course, specific holes or individual sprinkler heads.

Integration with other system components

Lynx® offers integration with other turf management components, giving you access to all of the information needed to support your irrigation management. Lynx can be seamlessly integrated with field hardware, weather stations, electrical systems, smartphones and much more, including the Toro® Turf Guard® Wireless Soil Monitoring System.

Comprehensive reporting increases your productivity

Armed with the thorough reports provided by Lynx, you'll be able to **immediately address any irrigation concerns and avoid potential course damage** . . . or just move on to other tasks when Lynx lets you know that things are running as planned.

- ✓ A comprehensive Course Report function supports your scheduled irrigation by providing system status information, even on manual watering activities.
- ✓ Lynx® auto-generates reports after each night's watering, so you can quickly confirm all sprinkler runtimes at a glance.

Field Control Systems that Integrate Seamlessly with Lynx®

TORO SMART FIELD CONTROL SYSTEMS

Toro is the World's leading golf irrigation company and provides an array of field control options

Lynx Smart Satellite

Satellite systems use controllers placed on each hole to operate a specified number of stations.

- ✓ Future upgrades can be accomplished with advanced satellite firmware, keeping you current with technology.
- ✓ Custom pedestal colors enable satellites to blend into the natural surroundings.
- ✓ Satellite upgrade kits enable older Toro satellite units to be upgraded very cost effectively vs. a complete system change-out.
- ✓ Hardwire, 2-way radio and paging communication options allows for easy installation and maintenance.

Lynx Smart Module

Intelligent 2-wire modules can be installed inside the sprinklers or off-fairway.

- ✓ High Speed 2-way communication
- ✓ Real Time Voltage and Amperage tests
- ✓ Best-in-class broadband lightning protection
- ✓ Vandal and flood resistant
- ✓ Allows for system expansion by tapping into the cable
- ✓ Toro INFINITY® and FLEX800™ Series sprinkler models have an integrated 2-wire module option

While others have followed in our footsteps, Toro is the industry leader in advanced 2-wire systems.

The Lynx[®] Central Control System offers integration with Toro's Field Control Systems, enabling you to have the complete information needed to support your irrigation decisions.

Lynx[®] Smart Module

INFINITY[®] SERIES GOLF SPRINKLERS

Engineered for Today's Challenges.
Designed for Tomorrow's Technologies.

The INFINITY[®] Series improves your course quality with less workload and most important, it keeps golfers playing. Calculate the money you'll save by cutting sprinkler maintenance from hours to minutes.

Smart Access[®]

Provides top accessibility to all critical components.

- ✓ No digging or unsightly turf repair scars
- ✓ Pilot valve removable with water "ON"
- ✓ Lynx[®] Smart Module (LSM)
- ✓ Customizable marker
- ✓ No buried wire splices or ground faults
- ✓ Replaceable cover if damaged
- ✓ Increased labor efficiency
- ✓ Lower long term cost of ownership

2-wire module

Accessible from the top allows for LSM module retrieval, system troubleshooting and system repairs without digging!

TruJectory[™] Adjustment of the Main Nozzle—24 Positions from 7°-30°

The protective enclosure isolates wire splices from the soil and potential shorts to ground. Provides access for system troubleshooting and repairs without digging!

FLEX800™ SERIES GOLF SPRINKLERS

Golf sprinklers with all the efficiency and proven performance features and benefits of the 800S and DT Series

FEATURES AVAILABLE IN INFINITY® AND FLEX800

TRAJECTORY ADJUSTMENT

24-position TruJectory™ or Dual trajectory to help fight the wind, avoid obstacles or reduce the radius.

NOZZLE BASE CLUTCHING

Hot spot watering has never been easier, simply turn, hold and shoot to put down as much water as needed.

LARGE NOZZLE SELECTION

From 20' to 100' we've got you covered! Toro provides the flexibility to optimize your system for maximum uniformity.

PART AND FULL CIRCLE MODELS

Align part circle sprinklers quickly and easily or adjust watering locations to suit seasonal needs.

**Toro is always there to help you care for your landscapes the way you want,
when you want, better than anyone else.**
