▶ = Step-up Feature

**HANDLES WET, HEAVY SNOW**  
Tall, open auger housing, free of obstacles reduces clogging in deep snow. The all steel rotor has a (1) helical design which quickly breaks up and gathers snow to the (2) center section that throws snow far through it's tall chute opening. SnowMax also cleans closer to the pavement than a regular two-stage snow blower.

**AUTOMATIC DRIVE SYSTEM (ADS)**  
Toro's innovative Automatic Drive System automatically senses and adapts to your walking speed.

**QUICK STICK® CHUTE CONTROL**  
Innovative joystick control allows you to change chute direction and angle quickly and easily, on the go.

**TALL CHUTE & BEVELED CHUTE DESIGN**  
Throws snow farther with a more efficient snow stream.

**EZ TURN CHUTE CONTROL**  
Easily change chute direction with one hand.

**CLEARNS CLOSE TO THE PAVEMENT**  
Scraper and skid shoes clear closer to the pavement than a regular Two-Stage.
