

POWERJET F700

ELECTRIC BLOWER

Highest CFM of any corded blower[^]

The PowerJet offers the perfect balance of power and performance.

With air volume rated at an impressive 725 CFM, PowerJet 700 helps you move large piles of leaves faster than any other corded blower.[^] Tough lawn clean-up tasks such as lifting heavy, wet leaves become a breeze with air power up to 140 MPH. PowerJet's light weight and variable speed dial allow you to match the power to the job. Use low speed around landscaping and hard surfaces, high speed for tough lawn chores and getting debris out of crevices. Easily attaches to select Toro blower accessories.

Maximum Air Speed	Up to 140 mph
Low Speed <i>(Blower Mode)</i>	87 mph
Air Volume <i>(High Speed)</i>	725 cfm
Air Volume <i>(Low Speed)</i>	568 cfm
Air Horsepower	0.728
AMPS	12
Weight	6.66 lbs.
*DBA High Speed	70.1

CFM: Air volume moves large piles of leaves **725 CFM**

MPH: Air speed lifts heavy, wet leaves **140 MPH**

Air HP: More power to do more work **.728 AHP**
