SMALLER FOOTPRINT

The GrandStand conserves space to get more machines on your trailer, or allows for a smaller trailer and lighter load. The foldable platform makes it even more compact for transport or storage.

PROPERTY OWNER ACCEPTANCE

Some property owners have negative reactions to larger, heavier-looking mowers and are concerned that their lawns may be damaged. The sleeker Toro GrandStand helps to overcome that problem.

BETTER VISIBILITY

The exceptional visibility from the GrandStand protects the operator, the mower and the property. The operator is better able to steer clear of obstacles, and easily pass beneath branches.

EFI – SUPERIOR FUEL ECONOMY

- Up to 25% better fuel economy than equivalent carbureted engines
- Lower operating cost
- Easy, no choke starting
- Reduced carbon footprint

FATIGUE-REDUCING SUSPENSION

The revolutionary Flex-Ride operator platform suspension results in less operator fatigue and higher productivity throughout the day. The suspension system is self-compensating for operators of different sizes.

2 IN 1 VERSATILITY

Toro's foldable operator platform instantly converts the GrandStand to a walk-behind. It easily lowers back down when its time to ride – saving time, money and trailer space by eliminating the need to switch mowers.
