### SINGLE-TANK DESIGN

Single vapor-draw propane tank mounted behind the seat allows for better deck and drive tire visibility.

Larger tank positioned above the engine aids in performance by increasing vaporization capacity.

### SMOOTH, POWERFUL RESPONSE

The 12cc unitized pump and wheel motor uses proven commercial hydraulic components while eliminating hoses and other potential leak points. You'll get a smoother, faster response while enjoying an even more reliable machine.

### EXCEPTIONAL COMFORT

Deluxe suspension seat features thick cushions, large bolsters and 3-D isolator mounts that absorb bumps and vibrations to reduce operator fatigue.
