

TORO®

ROLLCART™ TRAVELING SPRINKLER

The Toro Rollcart™ offers a cost-effective, easy-to-setup solution for irrigating sports fields, golf course roughs, and other large, open turf areas where an underground irrigation system is not installed or impractical. The Rollcart is hydraulically powered and travels the length of the field while applying consistent irrigation through the top-mount long radius impact sprinkler. The Rollcart travels along its integrated high-strength guide cable, and automatically shuts off the flow of water once it has reached the end of the line.

FEATURES & BENEFITS

Variable Speed

Adjustable travel speed allows the Rollcart to be dialed in to meet the specific needs of the turf.

Auto Shutoff

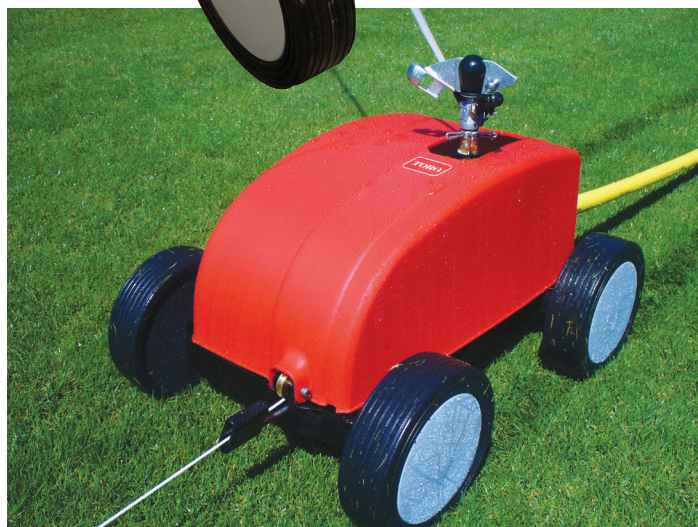

To eliminate water waste and over-watering, the Rollcart will stop irrigation and traveling once the guide cable has been fully retracted and the pass/cycle is complete.

Ease of Maintenance

Encased in a sealed gearbox, the drive gears have a very low friction factor and are practically maintenance free.

Flexible

A guide cable length of over 350 feet presents a wide range of applicable settings.

SPECIFICATIONS

Operational

- Radius capability: 52-64 feet
- Arc Adjustment: Part circle (30°-330°) / Full circle (360°)
- Output Flow: 11-20 gallons per minute
- Travel Speed: 20-70 feet per hour, adjustable
- Travel Distance: up to 390 feet
- Recommended Operating Pressure: 65 psi
- Maximum Operating Pressure: 100 psi
- Minimum Operating Pressure: 50 psi
- Nozzle Options: 6 and 7 mm

Dimensions

- Inlet Size: 1" (Quick Coupling)
- Overall Dimensions: 30" long x 18" wide x 16" tall
- Overall Weight: 60 pounds

Warranty

- Two Years

Additional Features

- ✓ Water turbine and Gearbox
- ✓ High-density body construction with stainless steel and brass components
- ✓ Galvanized anchor stake

ROLLCART PERFORMANCE DATA

psi	6 mm Nozzle		7 mm Nozzle	
	Radius (ft)	Flow (gpm)	Radius (ft)	Flow (gpm)
60	52	11.3	56	15.4
70	55	12.6	59	18.0
90	58	13.8	61	19.6
100	60	14.9	64	20.3
