# QUICK-COUPLING VALVES AND KEYS

Whether it's for hand watering the hot spots, fertilizer wash in, or washing down equipment, the full range of Toro Quick-Coupling Valves and Keys allows you to quickly connect directly to the main water source for all of your hand watering needs.

## FEATURES & BENEFITS

### Multiple Models and Configurations

A variety of one-piece and two-piece models in 3/4" and 1" thread sizes, including ACME thread key connections.

### Wide Variety of Covers

Stainless steel for durability, vinyl for impact resistance, lavender for effluent water applications and locking covers that restrict access.

### Hose Swivels

Hose swivels attached to the quick coupler key provides 360 degree rotation to eliminate hose kinking and tangling.

Effluent  
Options  
Available

## 470 SERIES FRICTION LOSS DATA

	gpm Flow						
	10	15	20	25	30	35	40
3/4" Inlet	1.5	3.1	5.3	8.5			
1" Inlet			1.1	2.2	3.6	5.7	8.0

*Note: For optimum performance, be sure to calculate total friction loss to ensure sufficient downstream pressure. Flow rates are recommended not to exceed 5 psi loss. Values listed in psi.*

## SPECIFICATIONS

### Operational

- 3/4" and 1" one- and two-piece single-lug models including ACME thread key connections to meet a variety of installation requirements
- Metal and vinyl locking and non-locking covers
- Effluent (lavender-colored) locking cover

### Warranty

- Five years
