**Components**

**LPLUS Internet Gateway**
- Astronomical timing – auto adjusts dusk and dawn times by your location and seasonal changes
- Easy web entry for location
- Automatically adjusts for Daylight Savings Time
- Firmware upgradable
- Power outage safe – you won’t lose your programming
- Secure Internet Gateway - No Wi-Fi Limitations
- Communicates with LPLUS-A via proven and dependable RF signal

**Power Control Unit**
-Compatible with any 120V device
-Up to 1000 foot line of sight range
-Each LPCU-A also functions as a repeater, assisting with long range installations
-The LPCU-A comes equipped with an antenna, for added distance or an extra boost for your wireless signal
-Repeater feature creates a mesh network on larger installs

**Mobile Device**
- iPhone® or Android™ smartphone/tablet app (App Store and Google Play)
- Control Multiple Lighting Systems from More Than One Device
- Compatible with Existing Light Logic™ Installations
- Use for Lighting, Ponds, Fountains, Gates & More...
- Robust, Reliable and Upgradable

**NEW**
Match Light Logic™ with the new 150-Watt LED Transformer from Unique Lighting™
- True LED Transformer
- 15 Amp Resettable Breaker for True LED Protection
- Light Logic™ Ready
- SNPC Ready
- Locking Door
- Stainless Steel Construction
- 6 Foot Power Cord
- 10 Year Warranty

**How It Works?**

**PC -** Configure locations, scenes, schedules and other functional options using the PC at www.lightlogicplus.com. The PC communicates with the LPLUS Internet Gateway via the Light Logic™ Internet Server.

**Mobile Device -** iOS® or Android™ downloadable App allows control of On/Off and Manual Override settings. The mobile device communicates with the LPLUS Internet Gateway via the Light Logic™ Internet Server.

**LPLUS Internet Gateway -** A communication device between the Light Logic™ Internet Server and the LPCU-A modules. The LPLUS Internet Gateway communicates with the LPCU-A modules using a very dependable 900 MHz RF signal.

Transformer
- The LPCU-A plugs directly into any Unique Lighting™ transformer and controls the entire transformer
- The LPCU-A is also compatible with most competitive transformers with a 120V interior plug
- Once installed, insert the internal transformer plug into the side of the LPCU-A

Covered Outlet
- Insert the LPCU-A into a double gang receptacle outlet
- Plug the 120V cord of the device into the LPCU-A
- The device can now be controlled by the LPLUS Internet Gateway, mobile device app or www.lightlogicplus.com

LPLUS Internet Gateway:
Secure Internet Gateway - No Wi-Fi limitations used to set up initial schedule, location and programming via PC or mobile device. Wirelessly communicates with LPCU-A.

Controls driveway and path lighting. Use the Mobile App or handheld remote to turn on the scene when unexpectedly arriving home late.

MULTI-SCENE EXAMPLE

Light Logic™ PLUS App:
Used with any iOS® or Android™ mobile device to extend hours, turn on/off scenes and activate emergency “All On” control.

Why Light Logic™?
- Wireless control for up to four scenes
- Conveniently used with any iOS® or Android™ mobile device
- Up to 250 different transformers or devices for each control scene
- Easily retrofit into existing lighting installations
- Compatible with any 120V device
- Astronomical timing - automatically adjusts dusk and dawn times by your location and seasonal changes
- Firrmware easily upgradable
- Sequence multiple transformers

Homeowner Benefits
- Create different ambience for different occasions
- Control pathway lighting for easy nighttime entry
- Turn on security lighting at the perimeter of the property at the press of a button
- Automate outdoor living spaces - control fountain, seasonal lighting and other outdoor elements

Power Control Unit (LPCU-A) Installation

The Light Logic™ system offers a convenient way to automate your low voltage lighting and other landscape features - all in an easy-to-install wireless system. Best of all, it installs into new or existing lighting systems.
