# Components

#### **LPLUS Internet Gateway**

- Astronomical timing auto adjusts dusk and dawn times by your location and seasonal changes
- Easy zip code entry for location
- Automatically adjusts for Daylight Savings Time
- Firmware upgradable
- Power outage safe you won't lose your programming
- Secure Internet Gateway No Wi-Fi Limitations
- Communicates with LPCU-A via proven and dependable RF signal

#### **Power Control Unit**

- Compatible with any 120V device
- Up to 1000 foot line of sight range
- Each LPCU-A also functions as a repeater, assisting with long-range installations
- The LPCU-A comes equipped with an antenna, for added distance or an extra boost for your wireless signal
- Repeater feature creates a mesh network on larger installs

#### **Mobile Device**

- FREE iOS®\* or Android™\* App (App Store and Google Play)
   Control Multiple Lighting Systems from More Than One Device
   Compatible with Existing Light Logic™ Installations

- Use for Lighting, Ponds, Fountains, Gates & More.

# 150SSSL-LED

**Match Light Logic™ with the new 150-Watt LED transformer from Unique Lighting™** 

- True LED Transformer
- 15 Amp Resettable Breaker for True LED Protection
- Light Logic<sup>™</sup> Ready

- Stainless Steel Construction
- 6 Foot Power Cord
- 10 Year Warranty

# **How It Works?**

**PC** - Configure locations, scenes, schedules and other functional options using the PC at www.lightlogicplus.com. The PC communicates with the LPLUS Internet Gateway via the Light Logic ™ Internet Server.

**Mobile Device** - iOS® or Android™ downloadable App allows control of On/Off and Manual Override settings. The mobile device communicates with the LPLUS Internet Gateway via the Light Logic™ Internet Server.

**LPLUS Internet Gateway -** A communication device between the Light Logic™ Internet Server and the LPCU-A modules. The LPLUS Internet Gateway communicates with the LPCU-A modules using a very dependable 900 MHz RF signal.

## **Example Scene Set-Up**

	SCENE	DESCRIPTION	QTY OF LPCU-As	TIME ON	TIME OFF	TIME ON	TIME OFF	DAYS OF WEEK
	1	Front Yard	2	Dusk	11:00 PM	5:00 AM	Dawn	MTWTFSS
	2	Main Front Fountain	1	8:00 AM	10:00 PM			FSS
/	3	Driveway / Path Lighting	2	Dusk	Dawn			MTWTFSS

# LIGHT LOGIC™

## **Wireless Scene Control**

The Light Logic™ system offers a convenient way to automate your low voltage lighting and other landscape features - all in an easy-to-install wireless system. Best of all, it installs into new or existing lighting systems.

Using four LPCU-A's, control up to four different scenes. Each scene controls a different zone.

### **Homeowner Benefits**

- Create different ambience for different occasions
- Control pathway lighting for easy nighttime entry
- Turn on security lighting at the perimeter of the property at the press of a button
- Automate outdoor living spaces control fountains, seasonal lighting and other outdoor elements

# Why Light Logic™? • Wireless control for up to four scenes

- Conveniently used with any iOS® or Android ™ mobile device
- Up to 250 different transformers or devices for each control scene
- Easily retrofits into existing lighting installations
- Compatible with any 120V device
- Astronomical timing auto adjusts dusk and dawn times by your location and seasonal changes
- Firmware easily upgradable
- Sequence multiple transformers

#### Landscape

## **Power Control Unit (LPCU-A) Installation**

### **Transformer**

- The LPCU-A plugs directly into any Unique Lighting™ transformer and controls the entire transformer
- The LPCU-A is also compatible with most competitive transformers with a 120V interior plug
- Once installed, insert the internal transformer plug into the side of the LPCU-A

## **Covered Outlet**

- Insert the LPCU-A into a double gang receptacle outlet
- Plug the 120V cord of the device into the LPCU-A
- The device can now be controlled by the LPLUS Internet Gateway, mobile device app or www.lightlogicplus.com
- The LPCU-A is rated for damp location installations and should not be exposed to direct water spray or rain
