LIGHTING SYSTEMS®

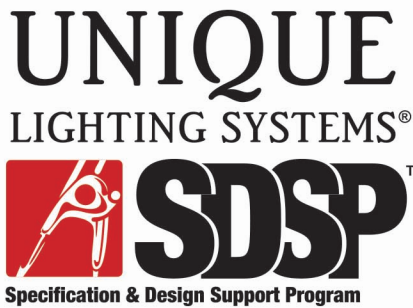

Let UNIQUE Lighten Your Workload

From Design to Installation UNIQUE Has You Covered

Let Unique Help You Lighten Your Workload

SPECIFICATION & DESIGN SUPPORT PROGRAM

Unique Lighting Systems® would like to assist you in "Lightening up Your Workload". In an effort to better serve design professionals and contractors throughout the landscape lighting industry, Unique Lighting Systems has created the Specification Design Support Program, offering complimentary landscape lighting CAD drawing services to assist you in creating functional, attractive and intuitive lighting plans on time and on budget.

Your clients depend on you to provide them with specific product choices and well-detailed installation methods. This program is designed to assist you in producing lighting plans that assure your clients are getting the very best value. The benefits of this program include:

- Time Saving Lighting Design Services at no charge
- Lighting Design, Wiring & Engineering
- Ability to provide your customers the best lighting design layouts
- Recommended Certified Installation Professional listing
- Consumer Buyer Protection Plan on our products

Time Saving Lighting Design Services at NO CHARGE

A complete landscape lighting design and system layout of your job. Transformer and fixture selection, based on your concept and within your specified budget, a complete lighting legend with product details and quantities, product specs and lighting notes.

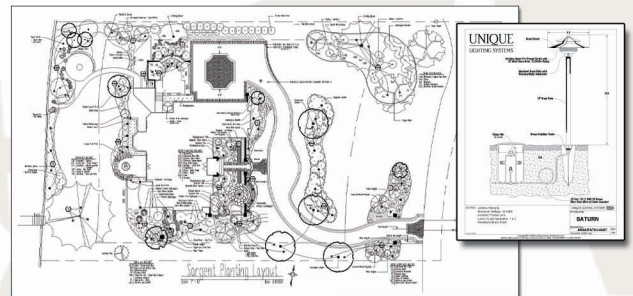

Lighting Design, Wiring & Value Engineering

Just like fine art, landscape lighting requires excellence and expertise. With over 150 years of combined lighting design and installation experience, Unique offers top quality products that maximize artistic expression as well as in-house lighting professionals who are experts in installation and available for training to help achieve a safe and reliable lighting system. Equally as important, Unique Lighting professionals are skilled in the technical and creative aspects of landscape lighting wiring and product layout for all your designs and projects. Let us do the work for you.

Consumer Buyer Protection Plan on Our Products

Unique Lighting Systems is the ONLY manufacturer in the industry to provide a Consumer Buyer Protection Plan (CBPP) for the contractor and homeowner. The CBPP sets both contractors and design professionals apart from their competition by providing complete protection and assurance for the homeowner. CBPP also provides the customer with confidence that their contractor has installed their lighting job correctly and to the standards of the manufacturer. This plan is a commitment from Unique Lighting Systems to stand behind their products and the people who install our system.
