HERALD™ Directional Spot & Accent Light

The Herald™ is a precision directional accent light machined from solid brass for lasting outdoor performance. An adjustable shroud allows on-site beam shaping and glare control — tighten the cutoff for dramatic uplighting or widen the spread for architectural washes and textured surfaces. A fully adjustable knuckle enables precise aiming for trees, columns, facades, and landscape focal points. Compatible with *Flex Gold*® MR16 lamps or *Vivid*® MR16 for advanced color control and individually addressable lighting.
