

# **Material Safety Data Sheet**

Lawn-Boy, Inc. 8111 Lyndale Ave S Bloomington, MN 55420

### Revision Date: August 24, 2009

#### Issue Date: September 1, 2009

### **Product Identification**

Product Name:	Fuel Conditioner	Parts Number: 89875
Product type:	Fuel detergent, stabilizer and rust inhibitor	
MSDS #		
Emergency Contact:	Chemtrec : 1-800-424-9300	
Contact Number:	1-952-888-8801	

### **Chemical Components**

Chemical	CAS #	%	ACGIH TLV	OSHA PEL	Other
Isopropanol	67-63-0	95		PEL 400 ppm PEL 980 mg/m3	
Proprietary Additive	none	5			

## Physical and Chemical Properties

Characteristics		Physical Properties			Hazards Description	Physical Dangers
Physical State Color	liquid Amb er	Vapor pressure pH	N/A	7 (VOC Coating (minus water): 0 Lbs/Gallon Coating Density : 0 Lbs/Gallon <del>_ Sol</del> vent Density : 0	Product is flammable, keep away from sources	Chemical Stability: Stable: Yes
Odor	solve nt odor	Boiling point/range: Melting	180 F. (82.2	Selvent Density : 0 Los/Gallon Percent Solvent (volume): 0 Percent Solids (volume): 0	of ignition, combustibles, oxidizing	Conditions to Avoid: Incompatibilities
HMIS Ratin Health:	n <b>g</b>	point/range:	IN/A	Percent Water (volume): 0 Percent Volatile by Weight:	material and acid.	with Other Materials:
Flammabil		Specific gravity	0.787	0 Miscellaneous: <u>% V</u> olatile/Volume: 100.0		Strong oxidizing agents, amines,
Physical Hazard:	0	Vapor density Evaporation rate	GT 1.0 N/A	Specific Gravity (H2O = 1): N/A Percent Solvent (Volume):		chlorinated compounds and caustic materials. Hazardous
		Solubility in water	Soluble	N/A Percent Solids (Volume): N/A		Decomposition Products:

## Health Hazards

Major Rout Exposure:	es of	Ingredients Considered Hazardous to Health	Potential Health Effects:
Inhalation	Х	This product does not	Inhalation. Narcotic chemical affecting central nervous system
Skin	Х	contain any components	resulting in: dizziness, nausea,
Ingestion	Х	above de minimus	visual impairment, narcosis and muscular impairment.
Eye	Х	concentrations that are	Skin contact Prolonged or repeated skin contact may cause
	•	considered carcinogenic by	dermatitis, scaling and possible
		OSHA, IARC or NTP.	systemic effects.
			Eye contact:. Irritant
			Ingestion: Low level of toxicity, small amounts of liquid
			aspirated into the respiratory system
			during ingestion may cause pulmonary edema.

First Aid Measures	Personal Protection
Eye: If the product contacts the eyes, immediately wash the eyes with large quantities of room temperature water for at least 15 minutes, occasionally lifting the lower and upper lids. Get medical attention immediately. A follow up visit to an ophthalmologist should be made. Contact lenses should not be worn when working with this chemical. Skin: If the product contacts the skin, promptly wash the contaminated skin with soap and water for at least 15 minutes. If this product penetrates the clothing, promptly remove the clothing and wash the skin with soap and water. Systemic effects may be delayed 18 to 72 hours, therefore keep individual under observation. Ingestion: If this product is ingested. DO NOT INDUCE A PERSON TO VOMIT. Get medical attention immediately. Inhalation: Move the exposed person to fresh air at once and call emergency medical care. If breathing has stopped, give artificial respiration. If breathing is difficult, give humidified oxygen. Notes to Physician: No data available.	GENERAL HYGIENE CONSIDERATIONS: Use normal hygiene practices.   OTHER PRECAUTIONS: Product is flammable, handle accordingly.   ENGINEERING CONTROLS:   Local Exhaust: Provide local ventilation to maintain exposure levels below recommended exposure limits.   Mechanical (General): In confined spaces, mechanical ventilation may be required.   Special Ventilation: N/A   Other Ventilation: N/A   PERSONAL PROTECTIVE EQUIPMENT   Eyes/face: Use splash proof chemical, safety goggles or appropriate full-face respirator. Contact lenses should not be worn when working with this chemical.   Skin: Use natural rubber or neoprene gloves as required.   Respirators: Do not use air purifying respirator. Use NIOSH approved respirator approved supplied or self contained respirator.   Respirators must be selected based on the airborne levels found in the workplace and must not exceed the working limits of the respirator.   Other Protective Clothing/Equipment:   If there is a possibility of exposure of an individual's body to the product, wear body covering work clothes to avoid prolonged or repeated exposure.

## Fire and Explosion Hazards

Extinguishing Media	Special Fire Fighting Procedures	Unusual Fire and Explosion Hazards
Use halon replacement or carbon dioxide extinguishers or alcohol foam for small fires. Water spray or fog can cool fire but may not be effective in extinguishing fire. Large fires should be extinguished with alcohol foam. Use water spray to cool containers exposed to fire. Containers may explode in heat or fire.	Flash Point: 54 F. (12.2 C.) TOC Autolgnition Temperature: N/A Flammable Limits Lower Limit: Explosive Limit (LEL):2.0 Upper Limit: Explosive Limit (UEL): 12.0 Wear NIOSH approved SCBA respirator in the positive pressure mode and chemical protective clothing. Flammable Limits: 2.0 to 12.0	Dangerous fire and explosion hazard when exposed to heat or flame. Isopropanol is extremely flammable and forms explosive mixtures with air. Isopropanol vapors may travel considerable distance to a source of ignition and flash back.

# Handling and Storage

Accidental Release /Spill Measures to Take
Small Spill: Remove sources of heat or ignition, provide adequate ventilation, contain leak using absorbent, inert, non-combustible material. Large Spill: Contain spill, transfer to secure containers. In the event of an uncontrolled material release, the user should determine if release is reportable under applicable laws and regulations.

## **Disposal/Transportation**

Disposal Method	Transportation
Dispose of product in accordance with local,	Transportation Information:
state, and federal regulations. Before	Shipping Information (CFR 49 and IMDG):
attempting clean up, refer to other sections of	Proper Shipping Name: Additive, gasoline
MSDS for hazard warning information.	DOT Hazard Class: Consumer commodity, ORM-D
	DOT UN Number: None required.
	IMDG Shipping Name: Not an exported item.
	Label Information:
	No data available.

# Regulations

SARA Title III:
Section 302: None
Section 304: None
Section 311: Hazard categories-Fire Hazard-Yes; Acute=Yes and Chronic=Yes
Section 313: None
CERCLA:
Section 311(b)(4): Requires discharges of crude oil and petroleum products in any
kind or form to waters must immediately be reported to the National Response Center
at (800) 424-8802.
Toxicology Information
No data available.
Ecological Information

No data available.
